

Renew Cleaner Concentrate

Renew Cleaner Concentrate is a neutral cleaner designed for use on all tile and stone surfaces. It is ideal for everyday, routine maintenance and chemically-sensitive surfaces.

Renew Cleaner Concentrate is safe to use on surfaces that have a coating or a sealer. Because of the neutral pH, Renew Cleaner Concentrate can be used by consumers without the risk of damaging the protection of the sealer that has been applied after a professional cleaning.

Product Safety

Renew Cleaner Concentrate is a consumer grade product. Read all directions including caution statements and MSDS before using this product.

As with all products, keep out of reach of children. Avoid eye contact. Do not ingest. If eye contact occurs, immediately flush with water for 15 minutes. In case of skin contact, flush with water. If irritation persists, seek medical attention. If ingested, drink plenty of water or milk and call medical attention.

Shelf Life

The shelf life of Renew Cleaner Concentrate is two years as long as it is stored properly away from extreme temperatures.

See the Material Safety Data Sheet for additional safety information.

Renew Cleaner Concentrate

Item # C017-12
